Join us to witness the breathtaking performance by Siphonists from across the globe!

Help us spread the word out and extend the invitation to those in your network.

Stay tuned for more updates as the event draws near.

ABOUT WSC

The first Japan Siphonist Championship (JSC) was organized by the Specialty Coffee Association of Japan (SCAJ) in 2003. Following its inception, JSC quickly gained recognition and become popular worldwide among the whole world.

In 2009, the inaugural World Siphonist Championship (WSC) was held, providing a global platform for Siphonists to showcase, exchange, and learn diverse cultures and unique techniques from each other.

During the competition, champions from their respective countries will produce 3 cups of blended siphon coffee and 3 original signature drinks, a total of 6 drinks, during a period of 15 minutes.

Attendees will have the opportunity to witness captivating siphon coffee brewing performances presented exclusively by champions from around the world, offering an experience unmatched anywhere else.
